

PROFESSIONAL SERVICE. TRUSTED RESULTS. PEACE OF MIND.

When you work with a MitigateNow Certified Contractor, you're getting more than a service, you're partnering with a vetted expert who understands the importance of protecting what matters most.

OUR ROLE

MitigateNow connects homeowners with vetted, trained, and insured contractors who specialize in disaster mitigation. We do not take a cut of the job—we exist to simplify and elevate the process of protecting your property.

WHY CHOOSE A MITIGATENOW CONTRACTOR?

- ✓ **Vetted** — Background checks, license and insurance verification
- ✓ **Trained** — Aligned with best practices and industry standards
- ✓ **Supported** — Backed by MitigateNow's guidance and resources
- ✓ **Independent** — We don't take a cut or interfere with contractor pricing

THE PROCESS

1

You Reach Out. We Make the Connection.

Once you fill out our form, we connect you with one of our MitigateNow Certified Contractors in your area.

2

Onsite Evaluation & Checklist Review.

Your contractor will perform a quick home hardening and defensible space evaluation, using our standardized checklist to identify all wildfire risks. They'll gather all necessary measurements and details for any work they can complete.

3

Clear, Detailed Bid.

You'll receive a bid for the work they specialize in. If there's additional mitigation work outside their scope—and you're open to it—we'll connect you with another trusted contractor in our network.

4

You Stay in Control.

Once you're ready to move forward, you'll coordinate directly with the contractor on scheduling, payment, and project details. MitigateNow is always available for support if needed.

5

Quality Documentation Every Time.

Contractors are required to submit before-and-after photos and complete a Job Completion Form for every project. This documentation is helpful for your records—and your insurance company.

SUPPORT YOU CAN COUNT ON

MitigateNow is here to support both you and your contractor every step of the way. From your first evaluation to final photos, we're your partner in home protection.
